## Letter from the Vice-President: **By-Laws**

One would wonder why an organization's bylaws would be something to write about, but for the North Atlantic Hanoverians breeders club this is an important step. The bylaws define the organization and the rule for governing for now and the long term future. On a weekday afternoon, Anne Early, Rachel Erlich and myself meet and began to review bylaws from other organizations that have successfully completed incorporation and non profit status. The mid Atlantic Hanoverian breeders were gracious enough to forward us a copy of their by laws that gave us an excellent starting point. After a few hours we had completed the review and now working to edit the document for final review.

Once completed, the bylaws will define the group's mission, the structure of the organization, the process for which officers will be elected and how voting will govern the organization well into the future. This is an important step to have completed. The bylaws are also required in order to file for incorporation with in the state of Massachusetts. Once incorporated, we can then file with the IRS a not for profit status. This not for profit status will allow the members of this organization to actively encourage sponsorship and donations to the organization to work towards our mission and better serve the Hanoverian breeders in our new England area.

We are fortunate to have a budding lawyer Anne Early within our organization to help us to file all the appropriate documents to complete this process. Hopefully in a short time we will be announcing our new Not for profit status and will be on our way to serving the New England area Hanoverian breeders.
